Advanced Resources Group, Inc., Acquires St. Louis Staffing Increases ADVR's Footprint, Adding Commercial Services

(St. Louis, Mo., June 23, 2020) – St. Louis-based [Advanced Resources Group, Inc. \(Advanced Resources\)](#), has acquired [St. Louis Staffing](#), becoming one of the St. Louis metropolitan area's largest staffing firms. With this acquisition, Advanced Resources will now offer technology, engineering, professional, and commercial-light industrial staffing to new and existing clients. Keith Jacob, former president and CEO of St. Louis Staffing, will also join Advanced Resources as vice president of their Commercial Staffing Division, and Advanced Resources will add St. Louis Staffing's employees to their existing team.

St. Louis Staffing brings commercial-light industrial services to Advanced Resources, complementing Advanced Resources' existing focus on technology and professional staffing services.

"We are in a challenging environment right now and while companies determine their staffing needs moving forward, we believe they will consider using staffing companies like Advanced Resources for maximum flexibility," said Sonya Gotto, CEO of Advanced Resources. "We are thrilled to now be able to offer additional services to our clients nationwide, and have the knowledge, expertise and experience of St. Louis Staffing as part of our team."

Advanced Resources, a certified Woman-Owned Business Enterprise, is a leading national consulting firm providing staffing, consulting, and workforce solutions. St. Louis Staffing, a

temporary staffing firm in St. Louis, has serviced clients in both Missouri and Illinois for more than 24 years in manufacturing, third-party logistics, clerical, and administrative staffing.

“We have seen a lot of consolidation in our industry over the last few years, and part of that represents market conditions and the need to scale the business,” said Jacob. “Our team is excited to continue to provide outstanding staffing services to our former St. Louis Staffing clients and equally excited to offer those same clients the wide range of services that Advanced Resources has available. Plus, we can now help Advanced Resources grow its national footprint in the commercial staffing space.”

With the ability to offer additional services to clients, consolidation of shared services and more opportunities offered to their candidate pool as well as internal staff, Advanced Resources expects to see growth. The company will also continue to seek acquisition opportunities as it expands within local markets, as well as nationally.
